### **Course Objective:**

Participants will implement effective research-based teaching strategies that will help students acquire strong reading comprehension skills.

### **Course Description:**

This course focuses on the research and exemplary practices that help students acquire strong reading comprehension skills. It provides participants with a synthesis of the research on reading comprehension instruction and vocabulary development. Participants examine, discuss, and evaluate the appropriate application of a range of instructional strategies from explicit to implicit teaching of comprehension skills. Strategies are presented for increasing student comprehension of both narrative and expository texts—including content area textbooks. In addition, approaches are presented to help students monitor their own comprehension and apply appropriate “fix-up” strategies when comprehension is not achieved. This course is appropriate for all K-12 teachers who need to help increase their students’ comprehension of text—whether that text is a literature selection or a subject area textbook.

### **Class Location/Dates:**

- ✓ Location: TBA
- ✓ Days/Time: Tuesdays and Thursdays from 4:00 p.m. to 7:00 p.m.
- ✓ Dates: November 18, 23, 30, December 2, 7, 9, 14, 16, 21, 23
